Considered building? The minute you drive up to 125 Santa Monica Drive you'll be rapidly changing your mind... Is it the extra car space, the stunning entrance with pivot door, the immaculately landscaped garden well you haven't seen anything yet.

36 squares of living and entertaining is surely the home you would build. The master bedroom makes a statement it is a good size with very stylish en-suite & good sized walk in robe. The fifth bedroom with fitted robes is just opposite so this would make a wonderful nursery or bedroom for a young child.. or even a multi-purpose room.
